CHILDREN'S SHORTS FILM MINI-FESTIVAL

1700 Posvar Hall Room - University of Pittsburgh

Presented by Amigos del Cine Latinoamericano/Friends of the Latin American Cinema, and Center for Latin American Studies at the University of Pittsburgh

Amigos del Cine Group will be presenting short movies about Mafalda on a continuing basis—and an extra little surprise!! You can arrive and leave at any time during these two hours. These short movies last between 10 to 15 minutes each. Mafalda is an Argentine girl, approximately six years old, with a great concern for the state of humanity and a proverbial hatred of soup. She often leaves her parents at a loss by asking about mature or complex topics. As an example, she gets chided for not concerning herself with childlike things but asking, instead, about China's communism; in response, she pretends to play with bubbles in soapy water only to promptly proclaim that she is done and then restate the China question once more. Her incisive observations often leave the adults at a loss. Mafalda is very popular in Latin America, Europe, and Asia, leading to two animated cartoon series and a book. After Mafalda, we will share another short movie, which will be a very nice surprise for the audience. Open to children of all ages and to those who are children at heart!! See posters displayed around the room for a list of films and times!
