The Southwest Corridor Northwest Passage piece, The FTZ as Device, is one of the short texts Brian Holmes recommends as background to his dialog with Deborah Cowen on Monday, February 22. It can be found on the collective’s website, http://southwestcorridornorthwestpassage.org

Brian is one of the main collaborators in the collective and co-authored the piece. He encourages people to explore other parts of the website as further background to the dialog on the 22nd.
