Accidental Latin@ Archives: From *Movimiento* to YouTube

Lecture and performance by

Urayoán Noel (*poet, critic, performer, translator, and professor of English and Spanish at New York University*)

Date: Thursday, November 12, 2015

Time: 5:00 p.m.

Location: Gold Room

University Club, 2nd Floor

123 University Place

For more information: kcperez@pitt.edu.

Urayoán Noel is a poet, critic, performer, translator, and professor of English and Spanish at New York University. He is the author of the critical study *In Visible Movement: Nuyorican Poetry from the Sixties to Slam* (University of Iowa Press, 2014), winner of the Latina/o Studies Book Prize from the Latin American Studies Association, and several books of poetry in English and Spanish, the most recent of which is *Buzzing Hemisphere/Rumor Hemisférico* (University of Arizona Press, 2015). Originally from San Juan, Puerto Rico, Urayoán Noel lives in the Bronx and recently completed a bilingual edition of the poetry of Pablo de Rokha for Shearsman Books.

The first part of the presentation explores the work of two experimental 1960s and 1970s art collectives, the Royal Chicano Air Force and El Puerto Rican Embassy, as part of an alternative genealogy of Latin@ social movement politics that foregrounds the politics of remediation in and against the politics of representation. Bridging two very different conceptualizations of the “accidental” archive, (Sauer, Burgess and Green), the presentation further considers how these art collectives paradoxically function as eccentric (counter-) archives in the context of their online circulation, allowing for a critical revision of print-centric Latin@ canons. The second part of the presentation consists of a brief poetry reading/artist talk that performs the accidental archive, incorporating YouTube, mobile apps, and references to these alternative Latin@ genealogies.

Sponsored by the Center for Latin American Studies, the Department of English, the Humanities Center, the Year in the Humanities Initiative, John Beverley, and the Department of Hispanic Languages and Literatures at the University of Pittsburgh.

G. Alec Stewart Student Achievement Award

As the University Honors College marked its 25th anniversary in 2012, it inaugurated the G. Alec Stewart Student Achievement Award to honor its founding Dean who provided the vision for the College and guided its influence at the University during its first 23 years. This award recognizes students in their junior year who are judged to best symbolize the values of the UHC and of the University. Four students will be selected annually for this award, each to receive a prize of \$1,000.

Candidates for this Award are expected to have benefitted in some direct way by their participation in one or more of the great variety of UHC activities, such as taking honors courses, living in an honors residence hall or otherwise contributing to the honors community, receiving honors advising, participating in the Brackenridge Research Program or in one of the UHC reading groups, or pursuing the Bachelor of Philosophy (BPhil) degree. Since the UHC is not a membership organization (that is, no student is a member of the UHC), the competition for this award is open to students enrolled in any of the eleven schools of the University of Pittsburgh in Oakland that offer undergraduate degree programs.

Two aspects of each applicant's credentials will be given primary consideration in the selection of the awardees because they were especially valued by Dean Stewart and have been promoted by the UHC since its founding. One is high academic attainment, which implies more than a high grade point average; this award intends to recognize students whose academic pursuits also reflect unusual depth and breadth. Depth might be demonstrated not only by the completion of advanced courses in the student's major subject area but also by participation in research that further advances knowledge in the field. Breadth might be reflected in the pursuit of multiple majors or a major plus one or more minors and/or certificates, indicating a broad scope of academic interests. The second aspect this award intends to recognize is intellectual curiosity, as shown by students whose quest for education is characterized by an impassioned inquisitiveness and a determination to learn, leading to deep understanding.

But high academic attainment and intellectual curiosity, however central, are not the only values that the UHC promotes among the undergraduate students at the University of Pittsburgh. Their own achievements and scholarship should be accompanied by an awareness of and concern for those around them. In a narrow sense this could mean interacting with a group of other students interested in the same subject matter, or it might be described more broadly as a willingness to help others succeed, on campus, in the city, or elsewhere. The Stewart Award encourages that sense of citizenship as one of the goals of the education provided by this university.

Students who want to be considered for this award should complete the application form (PDF), print it out, and submit it along with an up-to-date resume and official transcript to:

G. Alec Stewart Award
University Honors College
3600 Cathedral of Learning
Pittsburgh, PA 15260

They should also request letters of recommendation from two faculty members, providing them with the Faculty Letter Submission Sheets that are printed out with the completed application form. At least one of these letters should be written by a faculty member in an area closely related to the applicant's major area of study in college. The faculty recommenders should send their letters directly to the address given above.

All application materials must be received by 5:00 pm on **Monday, November 16, 2015**.

For any questions, please contact Karen Billingsley at (412) 624-6880 or ksb@pitt.edu.

All complete applications received by the deadline will be evaluated by a selection committee composed of four faculty members, two UHC alumni, and one UHC staff member. We anticipate that by mid-January 2016 the selection committee will have identified a total of 10-12 finalists among the applicants; these students will be invited for individual interviews with the selection committee. Following the conclusion of all interviews the four G. Alec Stewart Student Achievement Award winners for 2016 will be selected and announced at the time of the University's Honors Convocation in late February 2016.

The Nationality Rooms and Intercultural Exchange Programs--2016 Summer Study Abroad Scholarships

The Nationality Rooms and Intercultural Exchange Programs began in 1926. As committees completed their rooms, they turned their attention to creating study abroad scholarships. The Nationality Rooms have awarded scholarships for summer study abroad annually since 1948. The purpose of the awards is to enable University of Pittsburgh students to have an in-depth immersion in another culture for at least five weeks. It is important that applicants choose a program that will maximize their contact with the populace abroad and be accepted by the University for credit.

It is the farsightedness and generosity of the Nationality Rooms committees and their friends which have raised more than \$2.5 million to provide these important intercultural exchange opportunities.

STUDY ABROAD OPPORTUNITIES

Chile Open Doors Program

Chile is currently undergoing a large-scale reform to its public education system, which is meant to strengthen and improve the quality of education for public schools in Chile. These reforms are targeting municipal schools in particular, with the aim of providing more specific resources and support according to schools' greatest needs. With that in mind, it is with great pleasure that we announce that the English Opens Doors Program has been granted the tremendous responsibility of carrying out the English language education component of Chile's educational reform! In other words, the English Opens Doors Program will be the entity in charge of improving and strengthening English Language Education in approximately 1,000 schools over the next three years through diverse initiatives like our Teacher Development Programs, Students Development Programs, On-line English and Methodology courses for teachers and students and, of course, the National Volunteer Center Initiative!

We are officially starting to make strides in this mission to improve public education in Chile, and increase the level of opportunities available to students who can't afford to pay for a privately funded education. Due to the fact that this new challenge requires a considerable amount of restructuring and reworking of our pre-existing protocols and procedures, the Program has made changes to our volunteer services from what we had originally published. Fortunately, for the students and alumni of your university, this means that our application deadlines for our 2016 volunteer services have also been pushed back! Please refer to our website for more information: www.centrodevoluntarios.cl.

If you have any questions, or would like to further discuss our volunteer opportunities (via e-mail, skype, or even scheduling a video conference with interested persons), please do not hesitate to contact Stephanie.hairgrove@mineduc.cl.

LATIN AMERICAN STUDIES OPPORTUNITIES

The Kings International Development Institute at King's College London—MSc Latin American Development

This programme integrates a thorough grounding in development theory with the in-depth study of Latin America. This region, known for its historically high levels of inequality and its recurrent political and economic crises, has been enjoying a period of democratic consolidation, economic growth, and falling inequality. Through exploring the contemporary and historical experiences of this region, students will develop an understanding of the deep roots of social change and the background to current development challenges and policy debates.

The **MSc Latin American Development** highlights the importance of Latin America's position in the global order, as well as the relationships between countries of the region, in shaping countries' policy options and development outcomes. Drawing on the broader expertise within the King's Global Institutes, the MSc will also interrogate how experiences of emerging economies around the world illuminate the issues facing Latin America. The emphasis is on understanding the ways Latin America is trying to overcome long-standing barriers to stability and prosperity.

The focus on integrating theory, data, and history will foster students' critical and analytical skills as they examine how Latin American countries are promoting growth and economic, social and political development in new and often innovative ways.

Global Links

Global Links is a medical relief and development organization dedicated to **promoting environmental stewardship** and **improving health** in resource-poor communities, primarily in Latin America and the Caribbean. Our two-fold mission provides hospitals with a socially and environmentally beneficial alternative to sending hundreds of tons of still-useful surplus materials to landfills.

Hospitals and clinics in under-served communities often lack the supplies and equipment necessary to provide even basic care to their patients, resulting in needless suffering and deaths. At the same time, the US healthcare industry generates a staggering amount of medical surplus which, without intervention, is destined to pile up in our landfills.

Global Links' innovative model of recovery and reuse connects these two social problems in a way that helps to solve both, creating a "**virtuous circle**" that converts an environmental burden to a **life-saving purpose**. - Collaborate with Latin American institutions to further these objectives within countries across the Hemisphere by linking and mobilizing ideas and institutions.

Council Hemispheric Affairs

Founded in 1975, the Council on Hemispheric Affairs (COHA), a nonprofit, tax-exempt independent research and information organization, was established to promote the common interests of the hemisphere, raise the visibility of regional affairs and increase the importance of the inter-American relationship, as well as encourage the formulation of rational and constructive U.S. policies towards Latin America. In 1982, COHA's board of trustees voted to expand its mandate to include monitoring Canadian/Latin American relations. Since its inception, COHA has been one of the most active and broadest-based U.S. private bodies dealing with the entire spectrum of political, economic and diplomatic issues, as well as responding to the economic and political challenges confronting the nations of this hemisphere. From its beginnings, COHA's board consisted of the leadership of some of this country's most important trade unions, professional organizations and religious groups, as well as distinguished civic and academic figures, who joined together to advance their common belief in support of representative government and pluralistic institutions throughout the hemisphere.

The Latino Family Center (LFC) Volunteer Programs and Opportunities

The Latino Family Center provides Latino families in Allegheny County with the resources and support they need to raise healthy and happy children. As part of the Allegheny County Family Support Network, the LFC offers services and support to families that are in need of aid with child development, school readiness, and parent education. In order to better serve our families, we will need the help of volunteers to participate in a variety of programs and opportunities as described below:

Volunteer Tutoring Program:

The Volunteer Tutoring Program was launched during the beginning of the 2013-2014 school year and has proven to be a great success! Tutors are paired with a student in grades K-12 who needs help with homework, or an adult who is looking for ESL or GED help. Sessions take place in the home of the student/adult, or in a public space such as a library or coffee shop. Scheduling will depend on volunteer and student availability. Consistency and punctuality are crucial to this position as students will depend on tutor to help with daily school assignments and to ensure effective learning.

Kindergarten Readiness Program:

We are currently in the process of planning and organizing a Kindergarten Readiness Program to be held on Tuesday and Thursday mornings from 10:30-12pm, while adult ESL Classes are in session. Children's ages usually range from 0-5. We would appreciate the help in planning the structure and consistent execution of this new program. If you love little kids, this is the opportunity for you!

Special Events:

We frequently have events at the center such as holiday celebrations and programs that allow local organizations to come and help or educate our families on a variety of topics. In these cases, we will need volunteers to help us plan, organize, set up, facilitate, and help clean after the event. This position will vary by event and need.

Family Advocacy:

There are also opportunities at the LFC for volunteers to help out with interpretation in English and Spanish. Duties may include: translating/completing forms, accompanying families and translating at doctor's appointments, etc.

Cooking:

We are a group of staff members and LFC family members alike who loves to bond over food. If you also love to cook and are looking to challenge and apply your skills outside of your own kitchen, we invite you to help us prepare snacks and meals before meetings and events throughout the year. Multiple times or just a one-time offer, we look forward to trying out your cooking!

Center Office Help:

Every once in a while, the Center needs help with office duties! Volunteers will be asked to come in a help clean, re-organize, file, or help with the packaging of monthly newsletters in to envelopes.
