Maarja Lühiste

Lecturer in Politics of Gender

Newcastle University, UK

Using the European Election Study’s Media Content Data from 1999 to 2014, the talk focuses on how varying institutional settings affect the amount of news media coverage female and male candidates receive in European democracies. Is it the media, the parties, or the candidates themselves who are responsible for the consistent invisibility of women candidates in the European elections?

Made possible through generous support from the European Commission
