## LECTURE

# **“The Evolution of EU Support in France: True Euroscepticism or Simple Volatility?”**

**DR. FRANCESCA VASSALLO**

**Associate Professor & Chair of the Department of History & Political Science,  
University of Southern Maine**

Professor Vassallo's research focuses on political behavior, French and European Union politics, and EU identity. In her lecture, she will highlight the possible solutions to declining EU support levels in other EU member states, addressing how European integration can still retain a mostly positive image in the eyes of elites and citizens in the EU when there is a clear commitment to the original integration project.

**Thursday, Oct. 24<sup>th</sup>  
12 pm  
4217 WWPB**

This event has been made possible through generous support  
from the European Union, University of Pittsburgh,
