

## Mini Course

# Transforming Cities: Cities & Social Justice

October 22-24 | PS 1555 | 1 Credit

Due to economic development and globalization, cities continue to grow with predictions that 70% of the world's population will live in urban areas by the year 2050. This course, then, will view cities as hubs where patterns, connections, discussions, and the processes shape such issues as social justice, economic development, technology, migration, the environment among others. By examining cities as a lens, this sequence of weekend courses encourages students to examine cities as a system for discussing social processes being built and rebuilt. With an interdisciplinary focus, the course invites experts from the University of Pittsburgh, Carnegie Mellon, and relevant fields more broadly.
