# Mini Course:
# SMART CITIES & TECHNOLOGY

## COURSE NUMBERS:
## PS 1555-1010 (32056)
## 1 CREDIT

**This course will approach smart cities and technology through a multi-disciplinary lens by inviting various researchers and practitioners who explore: the influence of multinational corporations on cities; the rise of privacy issues in relation to adoption of technology within cities and homes; the replacement of human labor and access to employment; the role of technology on urban planning, among others.**

## MARCH 20-22, 2020
