

Water, Geography and Maps - Monday

By Thomas Mueller, Ph.D., GISP
California University of Pennsylvania
PennsylvaniaView

Human – Environment Interaction

- Humans Impact the Environment
- Humans Depend on the Environment
- Humans Adapt to the Environment

Google Earth and Water

- <https://www.google.com/earth/>
- Click Launch Earth
- In the Search – Choose your School Address
- What is the closest body of water to your school?
- Examine the landscape along the body of water (Is it urban? Rural?)

A river runs through it – ArcGIS Online

- <https://www.esri.com/content/dam/esrisites/en-us/media/pdf/geoinquiries/earth-science/10-freshwater-earthscience-geoinquiry.pdf>
- What makes up an entire watershed?

Aral Sea

- <https://earthshots.usgs.gov/earthshots/node/91#ad-image-0-9>
- <https://global-surface-water.appspot.com/>

St. Mary and Milk River

- <https://www.ijc.org/en/watersheds/oldman-milk-rivers#:~:text=Mary%20River%20as%20a%20source,Milk%20River%20valley%20in%20Montana.>
